CADET PROGRAM HANDBOOK

Willamette Leadership Academy (WLA) is a Public Charter School under the Sponsorship of Springfield Public Schools (SPS). WLA is open to students throughout the State of Oregon with a range of academic, leadership, and character-building programs which meet and exceed the State Standards for education as a full time, day school serving youth 6th through 12th grades. WLA is a Leadership Academy and utilizes best practice research regarding youth development and the positive aspects of consistent discipline and taking responsibility for one's actions. WLA uses a military behavioral model for the discipline, consistency and structure of operations utilizing best practice. The model is one based on uniformity: uniforms, designated rank, rank rewards and promotions which are modeled by staff and are important research-based aspects of the program.

The purpose of a military design for the Academy is to inspire positive academic, physical, and moral growth in every youth, referred to as **Cadet**. To achieve this, WLA provides a structured, distraction-free setting that allows Cadets to focus on their educational and personal development. The structure and design of WLA promotes leadership among all youth using last names eliminating gender bias and the wearing of uniforms eliminates the association of class or wealth and gender bias.

WLA provides Cadets with the academic skills to enable them to reach their personal career goals with the leadership skills and positive character traits that will enable each Cadet to become responsible citizens of their community. The leadership skills learned will allow the Cadets to become more successful in school and improve their relationships with family, friends, and authority figures.

STATEMENT OF NON-DISCRIMINATION

Willamette Leadership Academy does not discriminate on the basis of perceived or actual race, religion, color, national or ethnic origin, mental or physical disability, marital status, sex, sexual orientation, age, pregnancy, familial status, economic status, veteran status or genetic information in providing education or access to benefits of education services, activities and programs in accordance with Title VI; Title VII; Title IX;; Section 504 of the Rehabilitation Act of 1973, as amended; the Americans with Disabilities Act; and the Americans with Disabilities Act Amendments Act of 2008; and other civil rights or discrimination issues. A public, charter school may not limit student admission based on race, religion, sex, sexual orientation, ethnicity, national origin, disability, the terms of an individual's educational program, income level, proficiency in the English language or athletic ability, but may limit admission within a given age group or grade level.

Acceptance of the Academy

By enrolling a child in Willamette Leadership Academy, parents, guardians and youth accept the military model and the policies of discipline that accompany Military 150+ Design Format. The Academy used the "Military 150+ Manual" for combined military order of Air Force, Army, Navy, and Marine to create this Cadet Handbook.

Introduction

WLA School Structure

The school is formatted to serves grades 6 through 12. Grades 6-8 utilize a Middle School structure and are referred to as Second Battalion. Grades 9-12 utilize a High School structure and are referred to as First Battalion. This reference exists whether the Battalions are one or two physical campuses by denoting structure and schedule.

As a public charter school, Willamette Leadership Academy is administered by a Board of Directors and is responsible to the sponsoring school district, the Employer Agency, and the Oregon State Board of Education. The Executive Director (ED) is the top school administrator for WLA and may hold the position of Corps Commander (CC).

The Corps Commander oversees the Academics and Operations of WLA and of the Campus(es). This personel may be the Executive Director or work in partnership with the Executive Director.

The Director of Programs (DP) oversees academics, curricula, and programs for WLA. This administrator is responsible for evaluating programs for fidelity and reliability of programs. This person tracks compliance and academic progress with data and outcomes, grants, special programs, and testing. The Director of Programs works in coordination with the Corps Commander and the Battalion Commander and carries a teaching load.

The Battalion Commander (BC) acts as the principal of a Battalion. The Battalion Commander oversees the operations of a campus and Cadet body on a day to day basis and is the direct supervisor and evaluator of Officers. The BC is responsibility for attendance, academics, curricula, and behavior of Cadets. The Battalion Commander works with the Command Sergeant Major (CSM) and the Sergeant Major (SGM) to supervise the Non-Commissioned Officers (NCO) and may carry a teaching load.

The Command Sergeant Major (CSM) is the Dean of Discipline and handles the parents’ concerns regarding behavior. The CSM coordinates the scheduling of meetings and is the head supervisor of all Non-Commissioned Officers. The CSM is responsible for the training and disciple of all NCOs. The CSM may oversee both Battalions.

The second in command is the Sergeant Major (SGM) who oversees a Battalion. The SGM oversees the data and input of behavioral actions and outcomes and handles the Cadets' daily discipline and behaviors at the direction of the CSM and BC. The SGM and CSM are advocates for the Cadets and work to change unacceptable behavior in the least restrictive environment.

The Officers are the classroom instructors for CORE classes and electives.

The Non-Commissioned Officers are the Educational Assistants and instructors of PT, Military Science, Drill, Color Guard, and electives.

Each Battalion is divided into Companies. The Companies serve to unify the Corps with organization for Cadets and the Academy.

Willamette Leadership Academy implements a RANK STRUCTURE to develop a system of respect, leadership, motivation, character development, and Chain of Command. The rank structure uses both incentives and recognition as motivation and reward. The military format and structure will be used for daily interactions, classroom instruction, hallway formation, all school formations, drills, ceremonies, awards, and special events. This structure is modeled by uniformed staff.

Military Structures and Supports

Basic Training: All Cadets will receive basic instruction in military protocols, standing orders, ranks, and the military structure used by WLA. The training will be at minimum one full day. All newly enrolled Cadets of WLA will receive basic training when entering the Academy. Basic training is designed to teach the basic concepts of the program. Once a Cadet has successfully completed basic training, the rank of PRIVATE will be awarded.

Leadership and Life Skills: Training is for grades 6 to 8 and assists Cadets to not only rise in rank but understand the responsibilities and duties of leadership. The training prepares a Cadet to be a Squad Leader by building character and leadership skills.

Leadership: Training grades 9 to 12 and teaches advanced leadership skills. The training helps a Cadet to fulfill the role of Squad Leader and prepares Cadets for a rise in rank to achieve greater responsibilities and duties. An elective class in Leadership is also available for those Cadets who wish to advance in rank or participate in Cadet Government.

Military Drills and Award Ceremonies: Drills and training in military courtesy, customs, and parade are important parts of building character, team unity, and being a successful part of the WLA community. Drill training is used to teach teamwork, coordination, and following directions, as well as citizenship, pride, and community. Military drill is used for parades, special events, presentations, and ceremonies. Many ceremonies are integrated into school events to promote order and respect for the accomplishments of all Cadets.

Each Battalion has a specialized Color Guard which performs Color Guard duties for the Academy and for public and community functions. A Cadet must be eligible and maintain eligibility to participate in Color Guard.

Award Ceremonies are held quarterly to honor and promote Cadets. Cadets can earn awards in many categories. Some examples are Honor Roll, Military Bearing, and Community Service. Companies also compete for Top Company, Marching, and Academic awards.

Ceremonies

Daily Formation: At the beginning and end of each academic day, the Cadets will gather at the flagpole for the raising and lowering of the flag, to hear announcements, and to recognize the value of the Academy.

Award Ceremonies: Quarterly, each Battalion will conduct an award ceremony recognizing and promoting Cadets based on academic and personal achievement and recognizing outstanding company achievements.

Battalion Reviews: Each Battalion conducts a Battalion Review at the end of every school year. During Battalion Review, special awards, promotions of Cadets and staff, and recognition of volunteers take place. Parents, Officers, local community leaders, key stakeholders, and volunteers are invited. The Battalion Commander and Corps Commander will make every effort to gain public recognition of this event.

WLA High School Graduation: Cadets who have successfully completed their high school educational requirements according to the State of Oregon will be recognized at Battalion Review. Cadets will also march and receive their diplomas in the Graduation Ceremony. This special event is held in the evening and is followed by a reception.

Middle School Promotion: Cadets who have successfully completed their middle school educational requirements are welcomed to 9th grade at Second Battalion's Battalion Review and may also be promoted to the next higher rank (upon recommendation).

Special Programs

Academic Advising: Each Cadet will have Academic Advising added to their school schedule. This provides monitoring of academic and behavioral needs and intervention in order to assist Cadets' success at the highest possible level.

Advanced Placement® (AP): AP classes will be offered through a variety of methods at the high school level in order to advance the educational opportunities for all Cadets.

Cadet Government (CG): The government consists of:

1. **Executive Branch:** President, Vice President, Secretary, Treasurer and Liaison. Each of these executive Officers are elected by the Cadets.
2. **Legislative Branch:** One representative from each Company
3. **Judicial Branch:** Nine (9) justices who are elected to preside over the court and hear trials involving Cadet infractions.

Career and Technical Education (CTE): Cadets will have a selection of various Career and Technical Education classes in order to explore and develop skills in a variety of career fields. This will be complemented by Career and College Courses which help to develop knowledge of many different job possibilities. Several classes in the career trade field will be offered.

Community Service: In order to encourage a sense of community and school pride, WLA participates in various community service projects. Cadets are encouraged to participate in two community service projects before graduation. Projects that have an immediate and meaningful impact on Cadets, their families, and the community are especially important.

Cadets are encouraged to participate in two Community Service Projects. WLA promotes safe and healthy communities and participate in parades. Parades promote pride and a sense of community (generally the Veterans' Day Parade and the Springfield Christmas Parade). Community events like fun runs and community projects at the suggestion of parents and community are highly encouraged so the project has an immediate and meaningful impact on Cadets, their families and communities.

Credit Recovery Opportunities: WLA offers several ways for Cadets who have failed classes to recover those credits and get back on track to graduation. One way is a computer/instructor combination called Recovery Credit.

Academic Advising is used as an ongoing method to keep Cadets focused, monitor their academic and behavioral progress, and help them stay on top of their Academic and Career Plan (ACP).

Military Careers: The design and structure of the WLA program allows Cadets to explore the options of a post-high school career in the military. This includes elective classes in Military Science, Land Navigation, Survival Skills, and Leadership. WLA also works with local military programs like the Oregon Plan, local recruiters, and US Army branches, such as the National Guard, to provide Cadets with hands-on experiences in the military sciences.

Physical Training (PT): Daily Physical Training is part of the physical education program and is designed to build strength, stamina, coordination, and endurance. Cadets are required to pass the State Standards for Physical Training. WLA's PT program includes the required standards and military style calisthenics, drills, military basic training, field training, sports, games, and physical activities that combine other types of strength training.

Expectations of a Cadet

WLA is a character building and leadership Academy and sets these expectations 24/7. When in uniform, a Cadet must follow the rules established by WLA. The uniform and behavior of a Cadet, especially in the public's eye, is a reflection of WLA. Unacceptable behavior will be met with consequences.

Section 1: THE UNIFORM

(For full details regarding uniforms - see section 15)

The uniform is the most obvious and striking sign that you are a member of Willamette Leadership Academy. As in the military, your uniform is a symbol of commitment; if your uniform is sloppy, unkempt, and soiled, then you are out of uniform and in violation of WLA regulation. Wear your uniform with pride and honor by remembering it represents you, your family, and WLA to the community.

1.1 Standard Uniform

Daily Wear: Currently, the WLA uniform for daily wear is the (BDU) in solid olive drab (OD) green and black utility boots. A black webbed belt with black military style buckle is worn with the BDU uniform.

- The standard cover for Cadets is an OD green BDU cover.
- Cadet NCOs wear tan BDU covers or berets.
- Staff wear black BDU covers. 1st Sergeants may also wear black campaign hats.
- A red beret is worn by the current Drill Team *only*. This privilege must be earned.

Dress Uniform: The dress uniforms are the Class A's consisting of a collared white top and black slacks; no pleats, no cuffs. Authorized footwear for the Class A uniform is black dress shoes (no heels or buckles) or highly polished black utility boots. Slacks must have belt loops. A black webbed belt with brass military style belt buckle is worn with the class A uniform.

- The dress cover for Cadets is a gray beret.
- Cadet NCOs may wear tan BDU covers or berets with the dress uniform.
- A red beret is worn by the current Drill Team *only*. This privilege must be earned.

1.2 Purpose

The purpose of the uniform is to foster a sense of belonging and unity. The uniform does not distinguish any economic class or stature. All Cadets are equal in the WLA uniform and it is through achievement or any award or rank that distinguishes Cadets from one another.

1.3 The WLA Patch

The WLA patch was designed by Cadets for the Academy. It has been voted on and adopted by the Cadet Government and the WLA Board of Directors.

Section 2: Flags and National Colors

2.1 Formation

At the beginning of the school day and the end of the school day, all Cadets will "form up" by company in a "formation". The flagpole is the school's rallying point. The flags may be flown at half staff as directed by the Battalion Commander and Sergeant Major.

2.2 Display and Ceremonies

The flag represents the United States and is a symbol of our country and those who fought and made the ultimate sacrifice, therefore it is important that they be displayed correctly.

General Display-- Public Law 94-344, July 7, 1976 revised in 1992)

It is customary to display the flag only from sunrise to sunset on buildings and on stationary flagstaffs in the open.

2.3 Saluting the National Colors

There will be many times when Cadets will be expected to present arms (salute) to the National Colors, knowing when and how and doing so with pride and respect reflects well on the individual, their command, and WLA.

- When the National Anthem is played, uniformed Cadets will stand, present arms, and face the flag. If the flag is invisible from the Cadet's position, face the direction from which the music is coming. If not in uniform, the Cadet will place a hand over the heart.
- When at a parade or public event, when the retired Colors are passing the Cadet's position, the Cadet will stand at attention and hold this position until the Colors pass the Cadet's position.
- When in formation, the Cadet will only present arms on the command of the formation leader. The correct salute presented to the National Colors when in military or military-like uniforms, is to stand and execute the standard military salute.

2.4 Posting/ Retiring the National Colors

Battalions and larger units have a Color Guard (CG) unit. The Color Guard will maintain and operate in accordance with Military 150+ Manual.

- The Color Guard will be front and center of all formations when a CG unit is present. The guard will march at the head of all moving formations when present.
- When conducting ceremonies in doors, posting before the start of the event will be performed. At the end of the event, the colors are retired.

2.5 Folding the National Colors

At the end of formation, the flags will be lowered and folded by the Color Guard in accordance with Military 150+ Manual.

Section 3: Military Bearing and Carriage

3.1 Military Carriage

Following Military 150+ Manual, a Cadet will hold one's body upright with shoulders back, will talk and walk in a manner that commands presence and projects confidence, and will carry oneself with respect of self and respect towards others.

3.2 Cadet Leadership and Character

Leadership is made up of three distinct traits: Presence, Projection and Confidence. When one carries oneself appropriately, they earn the respect of others by showing that they know the military design and nature of leadership.

- When marching in a group, unit, or company a cadence may be spoken in unison by the Cadets.

1. Speak up, be heard using the appropriate salutation;” Yes, Sergeant Major ...
2. Answer directly and honestly and not fumble for answers (ex: “like... er... uh...”)
3. Listen without interrupting and becoming defensive.
4. Ask questions if he/she does not understand and do so appropriately.

Section 4: WLA Standing Orders

The following orders are observed in all classrooms at all times.

4.1 Respect and military carriage is always required.

4.2 NO food or drink will be consumed by Cadets **except** during lunch and/or nutritional breaks.

This includes the bus(es). Cadets are not allowed gum, candy, chips, or food that can be classified as “junk food” as per ODE guidelines except with a medical note or accommodation plan stating it is necessary.

Written requests must be submitted to HQ and the Battalion Commander must be notified. The final authority for this decision will rest with the Battalion Commander.

4.5 Chain of Command will be used and enforced unless it is in the event of a life or property-threatening emergency which requires immediate attention of the closest Staff member.

4.6 Cadets will always conduct themselves according to WLA Manual. Cadets are held to these standards 24 hours a day, seven days a week - in and out of uniform.

4.7 HORSEPLAY - Mock fighting, throwing any object not in an athletic event or specifically authorized, making physical contact without consent, chasing, running outside of PT is PROHIBITED and subject to action under regulations.

5.4 Cadets will enter and leave classrooms by request and permission on order of their instructors.

Before entering a room, Cadets must ask “Permission to enter.” Entry and exit will not be performed without the specific consent of the instructor, Commander, 1SG, or authorized Student Leader. Any other departure is considered AWOL.

5.6 All Cadets will use the following noise levels as instructed during class:

Any violation of these standing orders is subject to corrective action: Failure to Obey a Lawful Order or Regulation.

5.7 Cadets are NOT permitted to have their heads down, especially on desks without the consent of the Officer or NCO and only for medical reasons before sending to headquarters.

5.8 Cadets are NOT permitted to sit on desks, sinks, or objects other than their own assigned seat.

Section 6: Military Courtesy

6.1 Military Courtesy

Military courtesy is a part of character and leadership and is always observed and is more than a salute. The attributes of military courtesy learned at WLA and will serve one well in the future, especially in employment.

Military courtesy is formal and built on strict boundaries - especially between Cadets and staff. Military courtesy is referring to each other by rank and last name. This will apply to everyone, even Cadet friends during school hours.

Leaders and leadership are demonstrated and judged by the actions and behaviors exhibited. Following the rules is simple, easy, and will be consistent. The use of military courtesies will help advancement in rank.

6.2 How to address others

- When addressing a single fellow Cadet, address them by rank and last name: PVT Smith or Specialist Howard.
- When addressing civilian adults, use the word Sir or Ma’am and the person’s last name if you know it.

- When addressing a staff NCO, it is best to refer to the person as Master Sergeant or First Sergeant. The NCO can correct you if the rank is not appropriate. Apologize and re-address with the correct rank.
- When addressing a Commissioned Officer, they may be addressed as Sir or Ma'am or by rank. If the Officer corrects you on their rank, apologize and re-address the Officer using the appropriate rank.
- When addressing a group of people at WLA or in the community, it is best to say; "Ladies and Gentlemen..."

6.3 Saluting

A WLA Cadet salutes his/her superiors *only* when outside. A Cadet learns to salute correctly and crisply. The salute is not simply an honor exchanged but a gesture of respect and trust among Cadets and superiors. Remember, the salute is not only prescribed by WLA rules but is also recognition of each other's commitment.

6.3.1 The hand salute is executed as outlined in Military 150+ 14.1.2

- The proper way to salute is to raise your right hand until the tip of your forefinger touches the outer edge of your right eyebrow (just above and to the right of your right eye). When wearing headgear, the forefinger touches the headgear slightly above and to the right of your right eye. Your fingers are together, straight, and your thumb snug along the hand in line with the fingers. Your hand, wrist, and forearm are straight, forming a straight line from your elbow to your fingertips. Your upper arm (elbow to shoulder) is horizontal to the ground.
- In saluting, turn your head and eyes toward the person or flag you are saluting. Bring your hand up to the correct position in one smart motion without any preparatory movement. When dropping the salute, bring your hand directly down to its natural position at your side, without slapping your leg or moving your hand out to the side. Any flourish in the salute is improper.
- When saluting an individual, always greet the person by rank and name. If there are two people salute and say; "Sirs" or "Sir and Ma'am," etc.
- In a formation, only the ranking person in charge salutes. This is usually the class leader.
- When in a detail, any Cadet who sees an Officer walking by announces "Attention," all personnel assume the position of attention, then render the salute and greeting of the day. If participating in a game or work detail and actively engaged, the NCO in charge will make the command call.
- When walking alone, salute approximately six (6) paces from the Officer(s) and continue walking.
- When running alone, approximately six (6) paces from the Officer, slow to a walk, salute with a greeting, then continue running.

Salutes are not required when:

- Indoors, unless reporting to an Officer or when on duty as a guard.
- The situation is obviously inappropriate. In any case not covered by specific instructions, render the salute.
- Either the senior or the subordinate is wearing civilian clothes.
- When in a vehicle, do not salute.
- When the Officer is in a vehicle, do not salute
- When moving in a formation, only the Cadet, NCO, or Officer in charge is to salute and greet. Other Cadets are to ignore them unless otherwise ordered.

Do not joke around when saluting the United States Flag. This is considered extremely disrespectful and will result in corrective action.

6.4 Reporting

When reporting to an Officer, come to attention, then salute. State your rank and name, say: "Reporting as ordered, sir/ma'am/rank and name of person reporting to." For example, to a male Officer: "Private Jones, reporting as ordered, Sir." If a person to whom a Cadet is reporting is busy, the reporting Cadet should stand at parade rest against the wall, outside the door, or off to one side until the person recognizes the reporting Cadet.

6.4.1 When Talking

- When trying to get an Officer's attention, walk up to the Officer and address the Officer. Do not simply yell across a distance.
- When trying to talk to a superior Officer, walk to the location of the Officer, salute, stand at attention, and wait to be recognized.
- Do not interrupt an Officer unless the situation is an emergency.
- Always address an Officer by Sir or Ma'am.
- Remain standing unless ordered to sit.
- Acknowledge orders given by saying "Yes, Sir or Ma'am." Do not interrupt.

6.4.2 Being Dismissed

When a Cadet is being dismissed, the Cadet salutes and waits until the dismissal order is given.

6.5 Officers

Officers are responsible for their command/class. Officers attend to the academic and behavioral needs of the Cadets assigned to their company. Each Officer is assigned a company in addition to classes. A Cadet's company is very important.

- When indoors or in class, the first person that sees an Officer enter who outranks any currently in the room announces "**Attention**" and all Cadets assume the position of Attention. This position is held until the Officer gives an order or says "Carry on." When the Officer is departing the room the same procedure applies as when the Officer entered the room. The Officer should give the order of "**Carry on**" upon departure. If not, the ranking Officer in the room assumes control of the room.
- Breakfast and Lunch are exceptions to the Rule of Attention. "At Ease" is announced when a ranking Officer enters and leaves the cafeteria. All personnel are to remain quiet until the order of "Carry on" or an alternate order is given.
- If no Officer is present and a senior NCO walks into or out of the room, then the command "At Ease" is called. All personnel should stop talking.

6.6 Non-Commissioned Officers

Officers and NCOs are responsible for the educational operations and behaviors of Cadets in their company. The Officer and NCO are the Academic Advisors for every Cadet in their company. The Officer is the primary staff responsible for parent communication (especially to help support and make a Cadet successful), however this responsibility may be shared with the NCO at the Officer's direction.

- When addressing an NCO, never call the NCO "sir" or "ma'am." Use the NCO's rank and last name. Example: 1st Sergeant Howard.
- When getting an NCOs attention, walk up to the NCO, stand at parade rest and address; do not simply yell across a distance.
- When wanting to talk to an NCO, come to where the NCO is, stand at parade rest, and wait to be recognized.
- ***Do not interrupt*** an NCO's conversation unless the situation is an emergency.
- Acknowledge orders given by saying, for example "Yes, 1SG Smith."
- When moving down the hall and not in formation, fall to the side of the hallway, and stand at parade rest.

Section 8: Chain of Command

The Chain of Command is essential for the discipline and management of Cadets and the Battalions of WLA and follows Military 150+ Manual. The chain allows consistency, stops splitting of individuals, and relays policy and directives from superiors to ranks without distortion or misunderstanding. It is the discipline and consistency necessary throughout each class, from staff to staff and Cadet to Cadet.

By delegating authority from the highest level of leadership to others, Cadets, NCOs, and Officers can communicate the goal of academic and behavioral success from an individual up to a large group of people and the goals can be achieved.

Information and directives can also move from the bottom up, this is referred to as the **Chain of Concern**. WLA has a Cadet Government in order to address the Chain of Concern. The problems of individual subordinates *are important*, and the issues and problems Cadets perceive need a system to address without disruption to the Chain of Command.

The Chain of Command is strict but not rigid and, when followed as closely as possible, the Chain of Command keeps the consistency of discipline and order. The first link in the Chain of Command for a Cadet is their company NCO or Cadet leaders.

The Company NCO of each Cadet will bring concerns up to the Commanding Officer or Sergeant Major in order to address any problems or concerns. Cadet leaders use the same professional courtesy and speak first to their company NCO

Officers are approachable as the need arises, such as when the subordinate feels that only an Officer can help, when the matter is so personal/confidential that the Cadet feels only the Officer should know, or when the issue deals with an NCO or Cadet Leader.

8.1 Open Door Policy

All Officers have an open-door policy. Officers establish boundaries to address individual problems subordinates may have.

Cadets will follow these guidelines for the Chain of Command:

- Go through the Chain of Command first.
- Use the open-door policy for confidentiality or special need.
- Disclose the nature of a grievance, complaint, or problem to the NCO unless it is about the NCO, then go to the Officer in your Company.
- Be sure the Company Officer has time to attend to your request. Your Company NCO will make an appointment for you and you do not need to disclose what it is about.

Section 9: Title and Descriptions

Individuals may hold a leadership position but not possess a rank. For example, a Cadet without rank being moved to the Squad Leader position in a classroom.

9.1 Squad Leader

The Squad Leader is the first position of leadership and authority that a Cadet can be appointed to. This position is awarded to an individual for the purpose of performing the essential elements involved in leading subordinate Cadets under Military Manual 150+.

The duties and responsibilities of the Squad Leader include smooth operations of the squad and the health, welfare, training, and readiness of all Cadets in the squad. The Company Commander and Staff NCO determine and appoint the Squad Leader.

Squad Leaders are expected to ensure Cadets are ready for duty and address the mission the squad is given to complete. This means Squad Leaders ensure all uniforms of the squad are in good order and complete: standing orders and school ID's are in the uniform's left breast pocket, the Cadet is prepared to learn (paper, pen/pencil, etc.), boots and field jackets are appropriate and in order, and rank insignia, patches, etc. are being worn. If these items are missing, it is the duty of the Squad Leader to report this to the company NCO, so the individual receives the assistance they need.

Squad leaders have a difficult job because all Cadets must be treated equally. There is **NO** favoritism because it disrupts the consistent operation and discipline. Squad Leaders must be fair and just to all individuals placed under their supervision and command. Squad Leaders are to be evaluated and receive feedback, good or bad, from their Platoon Leader. Squad Leaders also train other Cadets on how to become Squad Leaders so, if they are absent, the ranking Cadet in the squad is prepared to take over that responsibility.

9.2 Platoon Leader (PL)

The Platoon Leader is the next position in the company's Chain of Command. The Platoon Leader is placed in the rear of the classroom and company formation where he or she can assist the Class Leader most, thus being the "eyes" of the formation. The Platoon Leader is also tasked with training Squad Leaders to be Platoon Leaders. The Platoon Leader is prepared to assume the position of Class Leader in the CL's absence.

9.3 Class Leader (CL)

This is the highest Cadet title and position in the Company Chain of Command. The Class Leader is the ultimate position of trust, authority, and leadership appointed by the Company NCO. The Class Leader is entrusted with the performance and conduct of the Platoon Leader and Squad Leaders. The Class Leader is expected to know the status of all Cadets in the company. This status will include:

1. Who is present for duty and who is not.
2. Where all Cadets are while on duty and what they are doing.
3. Who is on detail as directed by superiors.

This status is reported to the Company NCO and the Company Officer.

9.4 Staff Non-Commissioned Officer (NCO)

The Company's NCO is the first level of staff member command for the company. He or she starts as a Master Sergeant (MSG) and may be promoted to First Sergeant (1SG). Both MSG and 1SG have the same authority delegated to them by the Company Commander.

The company NCO reports to and works under the supervision of the Company Commander. The company's NCO is the senior Non-Commissioned Officer of the company. Generally, each company will have only one NCO assigned to it. The NCO is the Subject Matter Expert (SME) on all issues involving military operations and conduct.

The company NCO is responsible for coordinating with the company Officer in regards to the academics, welfare, behavior, conduct, and military training of all Cadets assigned to the company. The NCO trains all Cadets in basic leadership and responsibility.

The company NCO ensures the classroom and area outside the classroom are clean, in order, and policed. The NCO is also responsible for the attendance duty rosters, conduct of the company, latrine passes, and policies in accordance with the Company Commander's instructions.

The company NCO is an Educational Assistant and Academic Advisor for each Cadet in the company. The NCO is responsible for coordinating with the company Officer to help with monitoring grades and progress of Cadets and reporting home of any issues or needs. The NCO is generally the first line of contact with parents/guardians and the liaison between parents and the company Officer. The NCO provides input to the Company Commander for awards, promotions, and other favorable actions. The Company Officer may assign corrective action to a Cadet and delegate responsibility for administering it to the NCO.

The NCO is further tasked with other aspects of instruction and training including, but not limited to, military science, military drill, parade march, and intensive training (IT). The NCO assists with evaluating the physical readiness of Cadets, ensures that any Cadet needing a physical profile has one, and that any student with an IEP or 504 is being accommodated appropriately. Full authority for ensuring IEP and 504 accommodations are met rests with the classroom Officer, but the Officer may delegate authority to or request assistance from an NCO to help meet these needs.

9.5 Company Commander/Commanding Officer (CO)

The Company Commander (CO) is a commissioned Officer placed in charge of Cadets, equipment, education, and training in the company. The academics, personal welfare, behavioral needs and safety of Cadets is the ultimate responsibility of the CO. The CO may delegate the authority to act in his or her name to the company NCO. The responsibility, however, *cannot* be delegated.

The CO is the primary instructor in all academic matters and holds the ultimate position of trust and responsibility for Cadets. The CO and NCO work as a team to support Cadets in their company and help each to achieve at the highest possible level of personal success. The CO and NCO are responsible for the educational, personal, and physical safety of each Cadet.

The Company Commander helps appoints Cadet leaders and authorizes the NCO to take Corrective Action. A CO must be consulted in Corrective Action matters in which reduction in rank is considered.

The CO also is the primary person recommending awards and promotions and communicates this through the NCO to the Sergeant Major (SGM) and Battalion Commander.

Individual staff members who are assigned as Officers will start at WLA as a Second Lieutenant (2LT) and may advance in rank with experience and demonstrated performance.

9.6 Warrant Officer (WO)

A staff member who specializes in a subject area and may not necessarily teach a full course load or be assigned to a company may be appointed as a Warrant Officer. For example, special education assistants and IT specialists are typically warrant Officers. The rank of a Warrant Officer is above all NCO ranks but less in authority than a Second Lieutenant. Warrant Officers still are expected to receive salutes from enlisted ranks and render salutes to Commissioned Officer ranks and higher ranked Warrant Officers.

9.7 Battalion Sergeant Major (SGM)

The Battalion Sergeant Major (SGM) is the highest ranking, Non-Commissioned Officer in the Battalion. The SGM is the SME for military matters within the Battalion. The SGM is responsible for the operations and maintenance of the Battalion, the Military Science program, curriculum taught by the company NCOs (drill, ceremonies, parades, the honoring of the National Colors at the start and end of the duty day, etc.), and the Physical Training program (daily PT and IT).

The SGM oversees all Cadets and acts as the “Deputy Dean of Discipline” of a Battalion under the supervision of the Command Sergeant Major (CSM). The SGM meets with the Battalion Commander daily with concerns, issues, corrective actions, absences, and all other daily business. The two discuss needed interventions to help support and make a Cadet successful and consult with the CO on actions needing to be taken. The SGM acts as the senior military advisor to the Battalion Commander and provides input in issues pertinent to military operations and disciplinary matters.

The SGM seeks input for and advises all staff on issues involving Corrective Action. The consistency, order, and discipline of the Battalion regardless of time of day is the responsibility of the SGM. The SGM provides input to, assists, and advises company NCOs, Company Commanders, and the Battalion Commander when it comes to awards, promotions, and official recognition of superior performance. The Sergeant Major is responsible for the training and supervision of the NCOs and sits on the selection panel for hiring NCOs assigned to his/her Battalion.

9.8 Command Sergeant Major (CSM)

The CSM oversees the discipline and corrective action of all Cadets and acts as the “Dean of Discipline.” The CSM meets with the Battalion Commanders daily with all absences and corrective actions and presents any concerns or issues that Cadets have reported. The CSM also makes sure all suspension and expulsions are brought to the attention of the Executive Director and all documentation is properly done. The CSM is the senior military advisor for WLA and provides input and information in issues pertaining to military operations and disciplinary matters.

The CSM (along with the SGM) advises all staff on issues involving Corrective Action and seeks input from all staff. The CSM ensures consistency, order, and discipline of the Battalion regardless of time of day. The CSM provides input, assists, and advises the SGM, company NCOs, Company Commanders, and the Battalion Commander when it comes to awards, promotions, and official recognition of superior performance.

The CSM oversees the training and supervision of the NCOs and sits on the selection panel for hiring NCOs assigned to a Battalion.

9.9 Director of Programs (DP)

The Director of Programs oversees all academic curricula and ensures fidelity and validity of all programs. The Director acts as the second in command on an Academy level. The Director will fill in for a Battalion Commander and the Executive Director as needed. The Program Director will oversee programs, coordinate transition, and ensure the success of all academic programs and graduation rates (on-track, credit recovery, etc). The Director of Programs is critical to accountability to the sponsoring

school district(s) and the Oregon Dept. of Education. The Director of Programs ensures compliance to State programs, grants, and investors.

9.10 Battalion Commander (BC)

This title acts as the Principal of the Battalion and holds the highest position of trust and authority within the Battalion. The Battalion Commander (BC) has ultimate responsibility for the entire Cadet body and school staff. The BC determines structure, schedules, personnel, budget, and equipment needs for the Battalion. The BC has input in, and responsibility for, the hiring, training, evaluating, retention, and promotion of staff. The BC authorizes promotions of Cadets based upon staff's recommendations. The BC is the ultimate authority in corrective actions. The BC seeks input from NCOs, COs, and the SGM before heading into a BCCA. The BC will decide the Corrective Action and has the ability to postpone Corrective Action to seek further input or information. The BC is the only Battalion staff that can discharge a Cadet from the Academy for misconduct.

Section 12: Corrective Action

WLA encourages personal and academic growth and promotes leadership and citizenship. A key component of the WLA philosophy is consistency across all programs, regulations, rules, and policies. Corrective Action is used to enforce the rules of discipline and behavior expected of each Cadet.

12.0 Correction Methods

Methods of corrective action are listed below:

1. **Verbal Correction**
2. **Physical Exercise/Individual Training**
3. **Warning Corrective Action Statements**
4. **Formal Corrective Action Statements**
5. **Probation**
6. **Company Corrective Action (Company) CCCA**
7. **Battalion Company Corrective Action (Admin level) BCCA**

12.1 Verbal Correction

The first level of corrective action is "**on the spot corrective action.**" Whenever possible, unacceptable behavior will be addressed and corrected immediately or "**ON THE SPOT**". The only response necessary is to **verbally** acknowledge the behavior and to inform the Cadet that it is unacceptable.

12.1.1 Application of Limited Corrective Action

The use and application of corrective action is limited to uniformed staff of WLA. Non-uniformed staff or appointed volunteers **may not apply corrective action** but will be required to report violations of regulations, orders, or inappropriate behavior(s) on the part of any Cadet to the senior Officer present at the time with the exception of **verbal corrections**.

12.1.2 Cadets Must Follow Directives

Cadets are expected to obey the lawful directions and instructions of non-uniformed staff, appointed volunteers, and Cadets in a leadership position in accordance with WLA regulations, public law, and the Cadet Honor Code Agreement. Cadets reported for a violation will be subjected to corrective action for the original offense reported and additional corrective action for willful disobedience of a staff member as a violation and considered insubordination.

12.1.3 Lawful commands, orders, adjudication, rules of evidence

When considering the receipt of a direct order or command, the commanding Officer is to consider the following:

1. Authority: The Cadet accused knew that the order was given by an individual known to him or her to be superior in rank or position.
2. The nature of the order was not unlawful, in that it was not instruction to commit a crime, injure his or herself, or to injure another person.
3. The order was not in violation of someone's rights.
4. The specificity of the order given and received was understood. The Cadet had all means necessary to carry out the order.
5. The order was pertinent to the line of duty and/or;
6. The order was to maintain the good order and discipline of WLA.

12.2 Individual Training (IT)

Physical correction is used to reinforce verbal direction or to encourage Cadets to take corrective action more seriously. The number of repetitions and the type of physical correction is to be used must take into consideration the age, size, and physical condition of the Cadet and shall be administered in a manner that does not cause physical pain or injury. **In no case shall more than twenty (20) repetitions of an exercise be administered for a single offense at one time. Physical corrective action can be administered in time segments so an hour may be given in three segments as example.**

12.2.1 Remedial Individual Training

Individual Training is used to establish and maintain an acceptable pattern of conduct. The Individual Training may take the form of a regulated drill or other physical activity which may be related to the

offense committed. The Individual Training may entail instructing the individual to render a written copy of the rules, regulation(s), or law that was broken. Training will be conducted using the standard risk-assessment technique. Individual tasked will not be intentionally or deliberately subjected to any form of remedial training which will cause pain, injury, or illness.

12.2.2 Use of Individual Training as correction by Cadet Leaders

Not be used by Cadets below the rank of Corporal. The Company Commanders or NCOs may restrict the use of any type of corrective by a Cadet Leaders based on their best judgment of that Cadet's level of maturity, leadership skills, or ability. **Cadet leaders are restricted to issuing a maximum of ten (10) repetitions per offense.**

12.3 Limited Individual Training

Cadets may formally protest the use of physical exercise in the form of correction action if they experience **physical pain and if a Profile is current.** ("physical pain" is given to mean pain beyond normal discomfort). A formal protest of this matter may be made either through the normal chain of command or by written notification to the BC regarding the IT provided and/or lack of ability to complete or comply.

12.3.1 Uniformed Staff – Do No Harm

A staff member observed applying a trend of IT that appears harsh *must be reported to the BC.* The IT will be reviewed and is not seen as a judgement on staff but rather the need for and regard of safety of Cadets. The BC must turn in a report to the ED within 48 hours of the report and report any and all follow up.

12.4 Profiles from Individual Training

When a Cadet is suffering from an illness or injury that prevents them from performing their normal duties including, but not limited to, scheduled training or corrective action, the Cadet must obtain a medical profile to excuse them from these activities. The excuse must be substantiated by the BC and is usually in the form of a medical excuse.

12.4.1 Temporary Profile

A temporary profile is conferred for a specific duration as a result of an injury or illness. It is expected the condition will heal and allow normal training and activities to resume. Parents/Guardians may grant a profile for a period of three (3) days by sending a signed note indicating the medical condition and what training and/or activities they wish the Cadet to be excused from. They may extend the profile for three additional days if needed. Profiles for more than six (6) days will require a note from competent medical staff qualified to examine the Cadet and render a decision on their medical condition. Profile of more than six (6) days should have a re-evaluation date or a date when the individual may return to normal duty. Once approved the Battalion Commander will provide a laminated profile card to be carried in the Cadet's pocket along with the standing orders. The profile will state what activities and training a Cadet can perform and will be carried with the Cadet's Standing Orders..

12.4.2 Permanent Profiles

When a Cadet is suffering from a permanent or long-term medical condition, injury, or illness preventing them from conducting normal duties, a permanent medical profile will be issued that states the specific duties or training the Cadet may carry out. This profile must be supported by documentation from qualified medical staff. The BC will provide the Officer, NCO, and Cadet with a laminated profile card for the Cadet to carry in their pocket along with the standing orders. The Cadet needs to carry and be able to produce the profile sheet daily.

12.5 Corrective Action Statements

A Corrective Action form(s) are prepared only by Officers and staff NCOs when they have discussed with a Cadet the inappropriate behavior, attitude, or other violation. These forms will be filled out and turned into the SGM to be reviewed and filed in the Cadet's behavior file. They will be used to help

determine promotions and awards and to establish a plan to help Cadets in dealing with unacceptable behaviors.

NOTE: Issues requiring a corrective action must match the violation.

12.5.1 Behavioral File

Staff will maintain a continual Behavioral File on ALL Cadets in their Company for the academic year. This record will document all significant behavioral issues and changes both positive and negative. This record will be used as a basis to document the issuing of a Corrective Action according to the WLA Behavioral Matrix. Please use specific forms.

12.5.1.1 Confidentiality and Safeguarding of Records

All behavioral files are confidential and kept for one year.

12.6 Warning Corrective Action Statements

Warning Statements are used for repeated issues of the same behavioral problems and minor infractions. This documented offense(s) will not **normally** be used against the Cadet for awards or promotions.

12.6.1 Disposition of Corrective Action Statements

Corrective Action statements will be retained in the Cadet's behavioral file for one academic year. All behavioral files complete with all annotations, signatures, and dates will be maintained by the company's NCO under the authority of SGM. A copy and action log of all Company and Battalion CCAs, formal and warning corrective action, and discharges will be maintained and updated by the Battalion Sergeant Major. At the end of each school year these files will be shredded the exception with be those Corrective Action Statements that lead to long-term suspension (over 3 days out of school), exclusion, or expulsion.

12.7 Formal Corrective Action Statements

Formal Corrective Action Statements are used when the offense is serious and/or when the Cadet has not learned to adjust their behavior through the repeated use of lesser methods. These statements will be considered when a Cadet is being reviewed for awards, promotions, demotions, special activities, probation, suspension, exclusion, or expulsion. Formal corrective action statements are basically the "report form" for recording corrective action for the permanent record. Both Warning and Formal Corrective Action Statements are subject to review at Battalion Command level and the ED must be informed. The BC will reserve the authority to remand the corrective action back to the Company Commander for lesser or more relative corrective action/training.

12.8 Cadet Leader Reports

Cadets assigned as Company Leaders or as Class Leaders may write Cadet Leader Reports as a formal report of behavior or incident. These must be reviewed and signed by the Company's ISG before being presented to the SGM. The SGM will discuss with the Company Commander to determine if the report is approved for addition into the Cadet's behavioral file. Any Cadet observing an action needing discipline should report and fill out a Witness Statement.

12.9 Command Corrective Action

Command Corrective Action is when the form of corrective action goes beyond the most basic level and needs to be addressed in a CCA. When a Cadet has received at least one Formal Corrective Action Statement under section 402, this action is taken to respond to discipline issues when more basic levels of corrective action have not been effective.

12.9.1 Use of the CCA

The Company Commander will have the authority to determine a course of corrective action for a specific offense or behavior on the part of the Cadet. The CC determines if the Cadet is unable or unwilling to comply with the rules and regulations. The Company Commander will review all the facts related to the behavioral issue in question and will determine an appropriate course of corrective action designed to address the issue.

12.9.1.1 Preparation and Reading of Offense

The CO may direct the company's NCO (or the BC will direct the SGM) to prepare the command corrective action form. The designated senior NCO will write in the standard military format the violation, offenses and specifications which must include:

1. The date, place, and time the individual violation occurred.
2. The specific article in the code of conduct was violated.

The NCO may read the violation and specifications to the accused Cadet at the direction of the Commanding Officer, including the outline of the individual's rights. The accused will be provided a copy of the form and the parent/guardian will be notified of the action taken. The CCA form will be taken home by the Cadet. The parent/guardian will be advised to be present if they desire, at the CCA proceedings.

The Cadet will have no less than 24 hours to decide which plea to make.

12.9.2 CCA Proceedings

The CO will conduct the CCA proceedings. The Cadet will offer a plea of guilty or not guilty to the violations. The accused will be afforded the opportunity to present witness testimony in person or in the form of written statements in matters of defense, extenuation, or mitigation.

The Cadet may call witnesses or present written statements pertaining to the Cadet's character. This testimony must include specific circumstances where the accused Cadet was presented with a similar situation and the Cadet did act in accordance with the rules. Simply stating the accused was in this Cadet's personal judgment "good" is insufficient. The CO will allow the parent/guardian to render testimony, request greater or less corrective action, or any other statements relative to the proceedings before deciding the case.

12.9.3 Company Corrective Action

The CO may impose up to the following actions:

- Loss of lunch period, loss of Academic Advising Time and/or loss of all free time. (*Cadets must be given a minimum of 12 minutes to consume their meal*). Not to exceed 10 school days either consecutive or per quarter.
- Extra Battalion duty on grounds, under staff supervision, for up to two hours per day for no more than 10 school days. This time cannot be taken from any one class as not to set a Cadet up for failure.
- No favorable action for up to 30 days prior to desire for promotion, assignment or leadership position. For the purpose of this regulation, "no favorable action" is taken to mean no promotions, assignments to leadership positions, participation in special activities, awards, or transfers.
- Reduction in rank to the next lower level. (Reduction in rank for Cadets in grades Corporal or above must be made on the Battalion level)
- Recommend to the BC that the Cadet be placed on probation, subject to approval.
- Suspend any corrective action, in part or whole, for a period not to exceed 90 days to be imposed if a second incident of misconduct occurs. (This may also be considered part of the probation conditions)

12.10 Cadet's Rights

A Cadet called to CCA has the right to:

- Have a parent or guardian present.
- Have a spokesperson on their behalf, with advance notice given.
- Bring witnesses on their behalf, with advance notice given.
- Present evidence on one's behalf.
- Remain silent during the proceedings. (If the Cadet chooses to speak, any statement made could be used against him/her.)

- Request that the issue in question be addressed by the BC rather than the CO. The Cadet may be held to a higher level of corrective action.

12.10.1 Review Authority

The CO will send a copy of the CCA form to the BC for routine review. A parent or guardian may request review by the ED/CC and grieve the ED/CC's decision to the WLA Board of Directors. BC reviews must be completed within 48 hours. Corrective action may not be applied before review. Corrective actions sent to the ED/CC will be held in 48 hours and all corrective action suspended until the review is completed. In cases where a Board review involves an out of school suspension, Exclusion, Expulsion the ED/CC may suspend the action until the next board meeting unless there is a criminal act.

12.10.2 Documentation of CCA

All forms and notes from the CCA must accompany the outcome of the CCA into a Cadet's behavioral file.

12.10.3 Use of the BCCA in lieu of CCA

The BC has the authority to determine a course of corrective action for a specific offense or behavior on the part of any Cadet. Elevating to a BCCA before a CCA or other alternatives will be due to the severity of the infraction and violation. The BC will act in the following cases:

- The CO refers an issue due to severity and in need of greater corrective action that is not within the scope of authority.
- Upon Cadet request for the BC to address the issue. The BC has the authority to refuse.
- A criminal act requiring the response of law enforcement and severe penalty (i.e. weapons, drug, or incidents of assault).

12.10.4 Limits of BCCA

The BC may impose up to the following actions:

- Loss of lunch period, Academic Advising Time and loss of all free time. (**Cadets must be given a minimum of 12 minutes to consume their meal**). Not to exceed 15 school days.
- Extra duty on Battalion grounds, under staff supervision, for up to two hours per day for not more than 10 school days. Note: it cannot happen for the same classes and is considered an ISS for .5 day.
- No favorable action for up to 90 days this means no promotions, assignments to leadership positions, participation in special activities, awards, or transfers.
- Reduction in rank to the next lower level.
- Place the Cadet on probation not to exceed 90 days.
- In school suspension not to exceed 10 days.
- Suspend any corrective action, in part or whole, for a period not to exceed 90 days to be imposed if a second incident of misconduct occurs.

12.11 Participation and Rights

A Cadet called to a BCCA has the right to:

- Have a parent or guardian present
- Bring witnesses on Cadet's behalf – notice to be given in advance
- Provide other evidence such as a written statement.
- Remain silent during the proceedings.
- Provide written statements on Cadet's behalf by other WLA staff or Cadets.

SECTION 13: Probation and Suspension

13.1 Probation

This is considered the most extreme corrective action toward any Cadet before being excluded or expelled. Probation is part of the formal corrective action statement and decisions are based on reports

of behavior documented on these statement forms. Authorization for probation is made at the Battalion Commander level. Documentation will be forwarded to the BC office by the SGM, CSM, or Company Commander for review and authorization. The BC may ask for reconsideration if they believe there is not enough evidence to justify the action. A Cadet must have received at least two (2) formal corrective action statements before they can be considered for probation.

13.1.1 Notification

When a Cadet is placed on probation there will be a written notification and a telephone contact made with the Cadet's parents. Phone contact should be made as soon as possible but in no case later than 48 hours after the decision is made by the company NCO. Probation letters will be issued out of the Battalion office after a decision has been reached. Probation means a Cadet is now on their last chance to change their behavior and remain in the Academy. This is a very serious action and could be considered like a warning from a judge before further action. **The probation letter must outline, in detail, the behavior that resulted in the action and what the Cadet must do to remain enrolled in the Academy.** It must be clear in any notification that the next step after probation would be a Battalion/Academy Command Corrective Action pending exclusion or expulsion. The probationary letter will clearly state the conditions that will result in exclusion or expulsion. **Probationary letters must be issued within 48 hours of the decision having been approved by the BC.**

13.1.2 Standards for Probation

Probation is set for 90 days and may also include some other corrective action such as extra work details or assignments. Cadets may not be placed on probation for the same type of behavior a second time in the same academic semester.

13.1.3 Extensions

A first probation may be extended for 30 days to allow the Cadet to meet the goals and conditions of their probation if it is determined that the Cadet is making acceptable progress toward these goals. Extensions are made at the discretion of the Battalion Commander with a recommendation from the CSM.

13.1.4 Probationary Cadet on Suspension for Single Events

Cadets may be eliminated from single activities or projects as a means of corrective action. Parent(s) must be notified of the elimination, by phone when possible, at least 48 hours prior to the activity and it must be accompanied by a formal corrective action statement describing the behavior that resulted in the decision to eliminate the Cadet. Eliminating a Cadet should be used only when lesser forms of corrective action have proved ineffective and the offense is serious or is the result of continued and increasing minor behaviors. Cadets eliminated from single events must report to the BC and will be given appropriate duties and assignments during the event. All corrective actions of this nature must be approved by the BC.

13.2 Probation for Cadets on IEP

Cadets who are on an IEP or 504 may be placed on probation before manifestation. This is the final action on the part of the Academy/Battalion before convening an IEP placement meeting to determine if the behaviors are due to other factors or if the Academy is an appropriate placement. If a Cadet with an IEP or 504 is placed on probation, a copy of the notification letter to conduct an IEP or 504 review meeting is sent to the parents and Battalion's Special Education staff and/or Battalion Commander will set the meeting.

13.3 Suspensions Defined

For the purposes of this regulation a suspension is defined as:

- (a) On station (in school-ISS) suspensions: Removal from all classes or part of classes and a reassignment to in school suspension to continue with academic work and a special work detail.

- (b) Off station (out of school-OSS) suspensions: Removal from school building for a specific period of time not to exceed 10 days.

13.4 Use of Suspensions

Out-of-School suspensions (OSS) are used when alternative forms of corrective action have not worked and are the last step before consideration of exclusion and expulsion. Care should be taken in sending a Cadet home. Arrangements must be made to get all assignments and classwork prior to departure. A Cadet sent home on suspension will still be responsible for all assignments and duties that would be expected of them if the Cadet was attending regular classes. Suspensions are intended to be used as a “behavioral learning tool” and a change in environment for a Cadet who is going through a difficult period and is not able to function effectively. Suspension must be approved by the BC before being applied and notification must be given to the Executive Director.

13.5 Suspension Limitations

A Cadet’s first suspension should not be for more than three school days in general. Cadets on suspension should be given enough academic work to do to cover the days on suspension. Other corrective action such as “thinking reports” or essays related to their behavior issues may also be required. Suspension should not be used unless other lesser interventions have been tried first. It should be considered a final step prior to placing a student on probation. Parents should be involved when planning a suspension because their support will make it more a more effective experience.

Consideration should be given to the parents work schedule when deciding what type of suspension to use (in school or out of school). It may be more appropriate to use a suspension that keeps the Cadet at the Academy rather than at home if there is a lack of support or supervision in the home.

13.6 Suspensions for Cadets on an IEP or 504

Cadet on the IEP or 504 program may be subject to suspension. These Cadets **may not be suspended more than a total of ten (10) days in one academic quarter.** When planning a suspension, the Academy Special Education Department must be included. It will be the SGM’s responsibility to contact the staff and include them in the planning and determination of manifestation.

13.7 Exclusion or Expulsion

Purpose and Scope: Dismissal from WLA through exclusion or expulsion is to be used as a last resort. It means that a Cadet’s behavior has become extremely disruptive to the Academy and all corrective action methods have not been successful in altering the Cadet’s behavior pattern(s). This indicates the Cadet is not appropriate for this Academy. Cadets under exclusion or expulsion action are to be sent home immediately after contact with the parent is made. If this is not possible, then the Cadet is to be removed from their unit and all activities and will remain in a detention status until the Cadet can be sent home.

An exclusion or expulsion will be recorded in the Battalion Log as a discharge for misconduct and recorded in Synergy (electronic files) and also provided to records clerk for the cumulative folder

13.7.1 Behavior Matrix

1. Bus Behavior Matrix – Bus infractions as referenced on the bus matrix.
2. Academy Behavior Matrix – Academy Behavioral infractions referenced on behavioral matrix.

13.8 Danger to Self or Others

A Cadet may be dismissed from the Academy if their behavior becomes a danger to his/her self or to other students. The Cadet may also be asked to remain off campus until a mental health evaluation is performed. This can include, but not be limited to: possession of a serious weapon, showing suicidal ideation, threatening themselves or other Cadets, or repeatedly inflicting deliberate injuries on self. This may also include striking or otherwise abusing another Cadet or committing a violent act while in uniform or at any authorized activity. A Threat Assessment or Self-Harm Assessment should be performed to determine the necessary action. The removal may be permanent but may be subject to

review if the removal is not the result of a criminal action resulting in charges being filed against the Cadet.

For the purpose of this policy, a “serious” weapon is:

- a. All knives of any length, style, or design.
- b. Any stick, bat, rod, or tool that by its design or modification is clearly intended as a weapon, defensive or offensive.
- c. Any type of incinerating device or chemical.
- d. A dangerous or deadly weapon (for definitions, *see ORS 161.015(1) & (2)*):
 1. Any gun, BB, pellet, Airsoft or bullet.
 2. Any slingshot or projectile weapon

13.9 Failure to Adapt to Standards

A Cadet may be excluded or expelled under the conditions of failure to adapt if, by Cadet’s overall actions, behavior, statements, or attitude, they offer a clear indication that they are unable or unwilling to adhere to the standards and expectations of WLA. The Battalion Commander at the BCCA hearing must provide documentation showing a consistent pattern of actions, behavior, statements, or attitude that indicate that the Cadet is unable or unwilling to meet the standards and expectations.

“Standards and expectations” for the purposes of this regulation is taken to mean the rules, regulations, customs, and courtesies of WLA.

13.10 Exclusion and Expulsion Report

All incidents and reports leading up to exclusion and expulsion action must be documented clearly and specifically. The actions and attitude of the Cadet must be documented on appropriate and included on corrective action statements and staff reports. **Verbal correction or incidents where physical exercise was applied are not to be considered.** A certified notification letter must be sent to parent(s) detailing the reasons for the action and the conditions that led up to the decision. The school district must be notified of the action, it must be noted in Synergy (electronic records) and a copy of the report must be given to the records clerk for the Cadet’s cumulative folder.

13.10.1 (a) BCCA Hearing Required Before Exclusion or Expulsion

Cadets who are pending exclusion or expulsion are required to appear before the Battalion Commander and SGM at a BCCA before they can be excluded or expelled.

13.11 Criminal Activity Outside of the Academy: A Cadet will be subject to a CCA based on behavior or actions committed outside the Academy.

13.12 Demotions

13.12.1 Authority

For Cadets ranking Private and above, demotion to a lower rank may be considered as a corrective action for serious, non-criminal offenses. Demotions may be made at the same authority level as promotions, Cadet to Private First Class on Company level and Corporal to Master Sergeant on Academy or Battalion level. Demotions should be considered a serious corrective action and will be subject to the CCA process. No more than one level of demotion per incident will be considered appropriate.

13.12.2 Demotion periods

Permanent demotions are under conditions of a Company (CCA) or Battalion level (BCCA). Temporary demotions or suspension of rank may be made at the Company or Battalion level for issues such as academic suspensions, behavioral issues, or for training issues. Temporary demotions may be made on the authority of the Company Commander for a period not to exceed 90 days (3 months). Permanent demotions may be made on the authority of the Battalion Commander.

13.13 Special Interventions in Corrective Action

The regulations laid out above are to establish parameters for the application of corrective action and align with the bus and academic matrix. *It is by no means a comprehensive listing of all available methods of working toward changing a Cadet's behavior, attitude, or mindset.* Other methods can be used as an adjunct to the steps outlined in this section.

Physical Exercise: Often Cadets simply need to burn off energy resulting from youthful enthusiasm, angst, or anger over their home situation. The physical exertion of a “mindless” task can serve as corrective action as well as a “cooling off” period. Requiring a Cadet to build a sandbag wall that then must be moved once or twice can give the Cadet a mental break and an opportunity to refocus their energy.

Variations of this theme include digging a hole a very specific size and then refilling it, raking leaves or grass, sweeping an area, stacking tires, or rolling tires down a hill and bringing them back up. Repetitive motion and a project that is purely physical rather than technical often helps the Cadet focus.

Projects like these should be done alone. If there is more than one Cadet that requires this type of intervention, then make sure they are far enough apart that they cannot talk to each other. That defeats the purpose and often exacerbates the original issue.

Focusing corrective action on a Cadet's deficiency will often cause them to be more angry as opposed to being aware of the reason for the action. For example: if a Cadet is very poor at writing, giving them an essay to write is only going to increase their frustration but having them copy a page from a book gives them something to look at and work from while affording practice for their writing. One may be creative in creating personalized corrective action plans however, *there is to be no cruel and unusual corrective action.* The corrective action must align with the original offense.

These are only a few recommendations for consideration as the goal of these alternative corrective actions is to help the Cadet bring about change in their lives. Going from corrective action statement directly to exclusion or expulsion will not accomplish the necessary and shared goal.

SECTION 14: Rules of Conduct

14.0 Cadet Honor Agreement

Cadets enrolling agree to follow the rules and regulations, including the behavioral standards and ethics outlined in the “Cadet Honor Code,” which the Cadet and parents agree to at enrollment. This agreement is for services in the form of education and training. *[ORS Chapter 339.250(1)]*

14.1 Use of Profane Language

Officers, NCOs, and Cadets will refrain from using profane language or terms including, but not limited to, ethnic, religious, or gender slurs, insulting terms, hate speech, or foul language toward any other person for any reason. Use of these terms will be cause for corrective action. *[ORS 339.250 (4) (a)]*

14.2 Physical Assault

No Officer, NCO, or Cadet of any rank will ever physically strike, threaten to strike, or fight with another Officer, NCO, or Cadet regardless of rank or position. To strike or threaten to strike includes throwing any object at another person which has the potential to cause harm or injury, regardless of whether it contacted the person or not. *[ORS 163]*

14.3 Communicating a Threat

Any Cadet that offers by word or conduct the threat of violence or harm towards any other person is subject to corrective action under this code. *[ORS 163.190 and ORS 339.250]*

14.4 Malingering

Any Cadet having been found to have willfully feigned and/or falsified illness or injury, or self inflicts an injury, in order to avoid or be exempt from duty, physical activity, fitness exercises, or physical correction is subject to corrective action under this code.

14.5 Rendering a False Report

Any Cadet found to have willfully given a false statement, testimony, or report, either verbally or in writing, is subject to corrective action under this code. Any Cadet who causes another to make a false report based on their information is subject to corrective action under this code.

14.6 Hindering an Investigation

When in uniform, hair may touch, but not fall below, a horizontal line level with the lower edge of the collar. These should be neutral color or closely match the Cadet’s hair (ie: black, brown, or clear) **No decorative hair clips or accessories** such as butterflies, flowers, “scrunchies”, etc. are permitted.
